The following comments are in response to the office action dated 01/22/2007.

- 10 In response to the information disclosure statement filed 9/26/2006 failing to comply with the provisions of 37 C.F.R. 1.97, 1.98 and MPEP §609 because the number and the name do not correspond. Please replace the reference to U.S. Patent No. 6,889,010 with U.S. Patent No. 6,998,010; publication date 02/14/2006; to Wiley, Patrick. Please find the attached information disclosure statement with the correct references in compliance with 37 C.F.R. 1.97, 1.98 and MPEP §609.
- 15 In response to Claim 1 being objected to because of informalities in that the claim recites in line 3, "said first section contiguous said second section..." Claim 1 has been duly amended to remove the informalities cited above and to more clearly define the inventive features of the present application.
- 20 In response wherein claims 13, 11, 14-15 are rejected citing 35 U.S.C. §112(2) as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13 has been canceled
